Dear Commissioners:

After reviewing all the maps submitted to the Commission, the best and most logical map for all of San Mateo County is Map #69539. This map only splits one city—Burlingame.

The integrity of the redistricting process is very important. Map #69539 takes into consideration the requirements for fair and representative district lines by keeping communities of interest whole and diversifying districts to meet demographic changes. Most importantly, this map honors the significant public input from residents throughout San Mateo County to keep areas such as the Coastside and unincorporated areas together. Therefore, Map #69539 should be the only recommended map that moves forward to the Board of Supervisors. And, by adopting Map #69539, the Board of Supervisors will meet the needs of its constituents.

Sincerely,  
Barbara Hooper  
La Honda resident
