Hello,

This has been fascinating to learn! I started thinking about what the Demographers/Presenters said: the goal is to create districts with similar views, histories, values, & languages.

Then I reviewed our current map. If kept, it would appear to primarily focus on evening out population vs. population be race; or area-type/demographics. For example, Avenal has much more spanish spoken at home than Corcoran. Corcoran is similar in size to Lemoore vs. Avenal. Plus, theoretically 4 out of 5 representatives could live in Hanford.
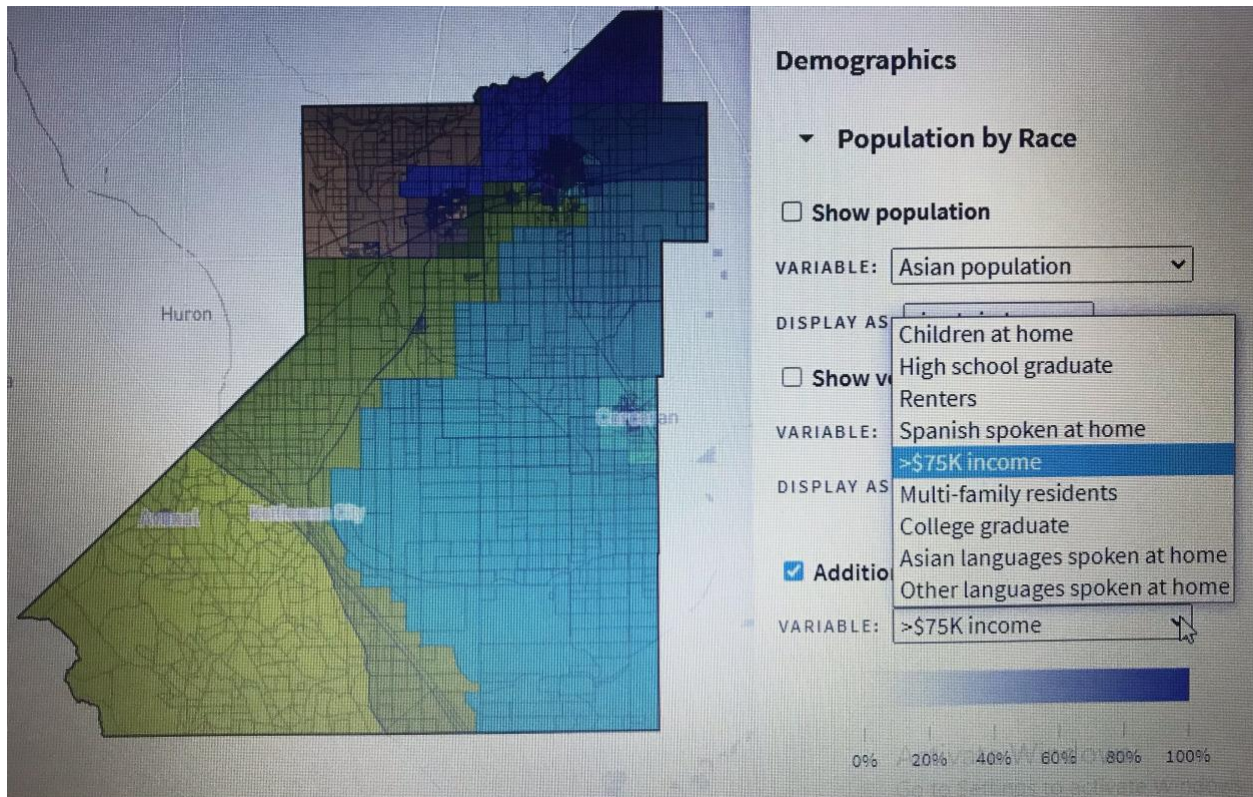

This intrigued me to work on creating a new one, & as you know: "easier said, than done."

First, I reviewed the ones submitted & see similar non-demographic goals, but was drawn to those who separated Avenal from Corcoran. I wish I could hear from the map creators to understand their reasoning (e.g. Avenal is vastly different than NAS Lemoore; I don't understand why they would be combined, & separate from the city of Lemoore).

My map focuses on similar demographics first, then population by race (i.e. Kings County is 57% hispanic): https://districtr.org/plan/74998 (Max population deviation: 9.82%)

Population Balance

	28,716
	28,532
	26,732
	25,523
	30,821

Ideal: 28,064.8

UNASSIGNED POPULATION:	0
MAX. POPULATION DEVIATION:	9.82%

☐ Highlight unassigned units

District 1. Most "Additional Demographics" on the redistricting website (e.g. college graduate, >$75k Income, other languages spoken at home), until I hit 1/5-ish of the population.

COMPARE [Hispanic population ▾]

WITH [White Alone population ▾]

AND [Asian population ▾]

	Hispanic	White	Asian
1	35.5%	47.3%	8.8%
2	38.6%	40%	8.8%
3	72.5%	19.4%	2%
4	75.6%	15.9%	1.4%
5	48.7%	39.5%	3.7%
Overall	52.9%	33.4%	5.1%

District 4. The rest of the small cities/areas combined: Avenal, Armona, Home Garden, Kettlemen City (& included Highway 41 & I-5, because they primarily see the tourist of our County), Stratford, Santa Rosa Rancheria (since also another tourist destination; & the kids go to Stratford Elementary & Central Union School District, it made sense in my mind to keep these areas together); 3/4 in this district are hispanic & a majority speak spanish at home.
